PRESS RELEASE

17 October 2019

GRP Consumable Solutions launches new Vending Stock Solutions at Advanced Engineering

To help further manage your consumable needs, GRP Consumable Solutions is delighted to introduce its new Vending Solutions service, on Stand P22 at this year's Advanced Engineering Show. With 24/7 availability, reduced staff foot fall and savings of up to 50%, as well as full reporting systems, let our vending machines take the strain.

The Advanced Engineering Exhibition takes place on 30-31 October at the NEC, and is the UK's largest annual advanced manufacturing trade show that provides the opportunity to meet and network with OEMs and supply chain partners.

Consumable Solutions Business Director, Lee Williamson comments, "We are thrilled to be demonstrating our new vending solutions machine at the show with some great giveaways inside. Come and try your hand at vending, meet our highly experienced team and learn about the considerable benefits a vending machine can bring to your business. We are also very excited to be showing our new vending solutions and general consumable solutions videos at the exhibition."
